Expected Outcomes: Written Expression

Students will be able to effectively build an argument and defend their stance based on documented sources.

Related typical general education outcomes:

1. Information Literacy
2. Analytical and Critical Reading
4. Ability to Construct Arguments
7. Written Communication

Assessment methods

Method: Philosophy Assignment

Students will construct a philosophy of the importance and application of Agriscience Education in public schools.

Findings:

Students had trouble with thought expression.

How did you use findings for improvement?

Encouraged students to re-write the assignment and helped through troubles including, subject and verb agreement, APA formatting, and appropriate descriptive terms.
