Expected Outcomes: Research Interpretation

Students will be able to interpret and analyze current research in Agriscience Education.

Assessment methods

**Method:** Literature Synthesis

Students were asked to construct a synthesis of current literature in Agriscience Education in various areas.

**Findings:**

Students needed help understanding statistical terminology as well as understanding the value of ‘peer refereed’ research publications.

**How did you use findings for improvement?**

Implemented further study of statistical analyses in CTCT 7780/7786.

**Additional comments:**
