Expected Outcomes: Create appropriate instruction

Students graduating from this program will show evidence of their ability to create instruction that is appropriate for levels one and two as required by the Alabama State Course of Study Modern Languages. (Data sources: Student surveys found in exit portfolios for fall and spring semester interns.)

Related typical general education outcomes:

6  Ability to Solve Open-Ended Problems
7  Written Communication
8  Oral Communication

Assessment methods

Method: Student surveys

All students who intern during the 2011-2012 academic year will have a Mean Score of 3 or above on a scale from 1 (strongly disagree) to 5 (strongly agree) on questions concerning intern’s effectiveness in addressing the standards in the Alabama State Course of Study: Modern Languages.

Findings:

There were no undergrad interns in Foreign Language Education during the academic year 2011-2012

How did you use findings for improvement?

N/A

Additional comments:

N/A

Expected Outcomes: Demonstrate competency on ICP

Students graduating from this program will demonstrate competency on all 15 proficiencies required by COE Checklist

Related typical general education outcomes:

6  Ability to Solve Open-Ended Problems
7  Written Communication
8  Oral Communication
10  Intercultural Knowledge and Diversity Awareness
11  Scientific Literacy

Assessment methods
Method: Inventory of Candidate Proficiencies

All students who intern during 2011-2012 academic year will have a Mean Score of 3 or above, on a scale from 1 (poor) to 4 (exemplary) for the 15 proficiencies as indicated by their cooperating teachers on the intern evaluation form.

Findings:

How did you use findings for improvement?

Additional comments:

Expected Outcomes: Demonstrate teaching competency

Students graduating from this program will demonstrate teaching competency in all six teaching categories from the PEPE Observation Instrument. (Data Sources: Teacher evaluation on Pepe Observation Instrument.)

Related typical general education outcomes:

- Ability to Solve Open-Ended Problems
- Written Communication
- Oral Communication
- Intercultural Knowledge and Diversity Awareness

Assessment methods

Method: PEPE Observation Instrument

All students who intern during 2011-2012 academic year will have a Mean Score of 3 or above, on a scale from 1 (unsatisfactory) to 4 (excellent), for the six teaching competencies as indicated by their cooperating teachers on the PEPE Observation Instrument.

Findings:

How did you use findings for improvement?

Additional comments:

Expected Outcomes: Develop reflective practices

Candidates for the bachelor's degree in Foreign Language Education will show evidence of reflective teaching practices in the Professional Work Samples

Related typical general education outcomes:

- Ability to Solve Open-Ended Problems
- Written Communication
- Oral Communication
